

McGILL MERMEN INSPIRED BY ROOTING CO-EDS

Juniors Win 4-3 After Hard Struggle With Y.

GIRLS ATTENTIVE

Grads. Require Extra Periods to Defeat Intermediates

McGill Water Polo Team possess one good quality; they can pull up when the odds are against them. Things were looking unpromising in the third quarter for the Juniors but they rallied well and added two goals to equal the score and then under the disadvantage of defending the deep end in the last quarter they outplayed the Y. M. C. A. for Lyman had his own way for the win as goal and Marcou shot beating the keeper but the final whistle blew while the ball was in flight and it was no goal.

The Intermediates faced an extremely well balanced and formidable team selected from the former members of McGill Championship Teams now termed as the "Grads".

Previous to the game there was a meeting of the executive of the Y. M. C. A. to consider the entry of this team into the League to fulfill the fixtures of the Y. M. C. A. Intermediates who have withdrawn. There was a heated discussion in which several teams held strong prejudices and did not consider the future of the City's standing in Polo. When the motion was called for voting it was found that not one team was entitled to a vote as there had been no fees paid. There was a hasty pulling out of bills but McGill happened to be in a state of financial embarrassment and so by two votes to one the Grads team an aldermanic appropriation was deferred from participation in the struggle for the intermediate honours. Accordingly the intermediate game could only be staged as an Exhibition but it was a great match at that for extra time was necessary.

In the Junior game things went off with a rush and McGill found good opposition Lyman and Marcou in the forward line found their speed a great asset and could swing and pass around to the discomfort of the opposing defence. As the Y. M. C. A. defended the deep end for this quarter McGill knew they had to make the best of their advantage. The "Y" backs were a husky pair and new the dodges of the game but Lyman tricked them in a snappy goal. Quarter time McGill 1; Y. M. C. A. 0.

Perhaps in the second quarter McGill was too ambitious for their play staged out into a four forward play. This left to one defence man. Matthews the task of keeping a fatherly eye on two forwards and on two occasions their interpassing had him at a disadvantage while the centre speeding up gave his two men openings so that Champion and Power scored. McGill came back to standard play and in due time held off the attacks while Gibbons and Lyman saw that the other keeper was not idle.

Half time, McGill 1; Y. M. C. A. 0. From the interval McGill came refreshed but their opponents felt also better and Thwaites swam up to the shallow end and shot to beat Goddard who had been playing in fine style during the previous quarter. What ever it is in a girl's voice that inspires a man is hard to tell but the vociferous R. V. C.'s who completely thronged the gallery certainly had the desired effect on the Juniors. Their hearts fluttered and their feet and hands tried to keep time so that they came speeding up like seagulls. When the ball went down to the shallow end, the defence broke away and Matthews speeded up with the ball but had hard luck. After another break however he passed to Marcou who netted. This gave a kick to the Juniors and the R. V. C.'s applauded in the gallery; the Juniors hands fluttered so much that it was difficult to see the ball for spray. Gibbons and Lyman hung up well in the deep end and the former put in the necessary goal which brought a tie and immense applause.

Third Quarter, McGill 2; Y. M. C. A. 0. It was now a three man defence which fought hard and Goddard showed up well in goal; he will be worthy a successor to Jardine if the necessity should arise. Donatuses can hold up swift men as well as speed up the ball and this he did well, Lyman having a dandy pass from Marcou. Dipped the ball past the keeper. Towards the end Matthews went up with the ball to pass to Marcou who shot entered

FIRST WORKOUT GYMNASTIC CLUB

Promising Material Discovered in First Year Men

Although two members of last year's championship gymnastics team have graduated, the prospects for a successful season seem promising after the first practice of the club, held last night in the High School Gymnasium. Most promising material appeared, half-a-dozen freshmen showing the marks of former training and experience, while a number of upper classmen also put in an appearance.

Despite the fact that Reg. Delahay, Frank Consiglio, and Shirley MacKoy are not back at College, it seems as though the men turning out will, with hard training, prove a formidable team in opposition to the gymnasts of other colleges.

Doug Bremner was in charge of the workout yesterday afternoon. He instructed several of the beginners in some of the rudimentary exercises, but he took care that no-one was allowed to do much, as first day training is apt to be too severe.

The club again wishes to stress the fact that there are several places to be filled on the team, and that apparatus work is a pleasant way of obtaining physical training credit. Therefore everyone is requested to turn out. The next practice will be held Wednesday at five o'clock, under the direction of Willis Consiglio.

McGILL GRADS CONTESTING FOR DOMINION SEAT

Most Numerous in Quebec Constituencies

NONE IN EAST

Varsity Also is Well Represented in Contest

Many of the McGill graduates, generally in Law, are entering into the Dominion elections as candidates this year. Seven are contesting constituencies in Quebec, four of these representing Montreal districts. Prominent among them are R. L. Calder, K.C., of Mount Royal Law '06; Herbert Marier Law '08; S. W. Jacobs, K.C. Law '08 and Idolore Popilger, Law '10.

It is a curious fact that the Maritime Provinces are not fortunate enough to have one McGill man among their parliamentary candidates while British Columbia seems in the same state.

In the province of Quebec, R. L. Calder, K. C., a graduate of Law 1906 is running in the Constituency of Mount Royal. In Drummond—Athabasca is found Wilfred Grouard of Law '16.

S. W. Jacobs, K. C., of Law '08 and Idolore Popilger, Law '10 are running in Cartier constituency, and W. F. Kow of Law '01 in Bruneau—Missisquoi. L. L. Legault of Law '06 is a candidate in Argenteuil, as is the Hon. H. Marier of Law '08 in St. Lawrence—St. George, and A. J. McDonald of Law '10 in Glenora constituency.

In Ottawa, J. L. Chabot of Med. '02 is competing for a seat, while Alex. MacGregor of Arts '04 is to be found in York West—Ont. In Saskatchewan there are two graduates, W. C. Sutherland of Arts '06 in Kinsley and A. M. Young of Med. '06 in Saskatchewan. A. Scott of Ap. Sc. '05 is running in Camrose—Alta.

This list may not be complete by any means, as it is very difficult to trace men who graduated from McGill some time ago. Toronto University has over thirty card dates in the coming elections, including the present Premier and the Leader of the Opposition.

The goal after the final whistle went, Final McGill 4; Y. M. C. A. 3.

McGill 4 Y. M. C. A. 3
Y. M. C. A. 0 2 1-4
Y. M. C. A. 0 2 1-0-3
McGill team cannot get the hang of winning a goal and when the Junior Captain called for the first time the quarter, knowing that if it came down would give McGill the advantage rested up on the diving board. Even the Intermediates after their year of wangling cannot influence the spin of the coin and they too had to defend the shallow end. Grads certainly gave the Intermediates "what for". After having colored the ball, Vernet began to pile in and tried a finger from the centre but the long shot was foiled. Returning to the centre the ball was suitably handled Moore and Clarholme who tried their luck but failed.

(Continued on Page 2)

LECTURE IN UNION THIS AFTERNOON

"Efficient Manhood" is Subject of Talk

R. V. C. TOMORROW

Prominent Medical Man to Address Students on Grave Evil

This afternoon at five o'clock a most important meeting will take place in the Union hall-room. Dr. Winfield Scott Hall will deliver an address on "Efficient Manhood," the first of a series of three talks which the speaker will give while in Montreal. Col. W. Bovey will in all probability be in the chair.

The lecture this afternoon, which is for all men undergraduates, will be followed tomorrow by a corresponding address to the women, on "Efficient Womanhood," while Dr. Hall will speak to the M.S.P.E. and Graduate Nurses at noon tomorrow on "Sociology of Youth and its Relation to Social Development." Both these lectures will be held in the R. V. C. hall while that for the men will be given in the Union.

Dr. Hall is Professor Emeritus of Medicine from the North-Western University of Chicago. Dr. Lamb requests that every man in the University make an effort to be present this evening to hear Dr. Hall.

During the war all the fighting nations learned the supreme value of man power. It was put to work and every possible method was adopted which would help to bring each worker up to optimum efficiency.

The years just ahead will make demands no less severe on the nation's manhood. Work at full capacity and top speed in factory mine, farm and railroad will be needed to replenish the world's depleted store of material goods. Clear brains, keen intelligence and physical endurance will be required for the manifold scientific professional, constructive and humane tasks that face us. Each individual member of the coming generation of Canada's young men is the more valuable and responsible because so many of his old brothers of the world over are missing.

Fitness—physical, mental and moral—depends fundamentally on health. This means not only the avoidance of diseases and defects, but positive abundant health—prime condition of mind and body. Every young man in Canada, to be worth of the heritage left him by the heroes on the battlefield, should know the laws of physical and mental efficiency and live up to them. Keeping fit for Canada's task in the new world is the present obligation on every youth of the land.

A man's body is his life-time willing servant. Abuse it—and it will be patient, but when it takes revenge it takes it a thousand fold. "Give it a square deal and more—it will give back." (Continued on Page 4)

HARRIERS WILL HOLD FACULTY MEET SOON

At four o'clock this afternoon there will be a Harrier Run over the long course for those members of the club who were unable to attend the practice last night. The men who competed in the Vipond Cup Road Race of Saturday took things easily yesterday, and rested after their seven mile grind. They were all in good shape, but several complained of injured feet, hurt by the hard pavement.

Most of the men out last night contented themselves with the short course, but several went over the full route. As the Interfaculty Contest will in all probability be held next Saturday morning, men of all Faculties are hard at work.

There is a large silver cup offered to the winning team, which is the first to get four members of its faculty over the finishing line. Two years ago Commerce won the most, while last year Medicine was victorious. Science will be a strong contender for championship honours this fall, with such men as Alrey, Creighton and Gray-Donald, not to mention half-a-dozen others in the Engineering ranks.

In the Vipond Cup Road Race on Saturday afternoon, McGill came third, being beaten by a narrow margin by the Montreal Harrier Club for second place. In this race, Goddard came fifth, Alrey tenth, Brodie twelfth, Creighton fourteenth and Gray-Donald twenty-first. This was very satisfactory, as the college runners were competing with the best in Montreal.

YALE 3; MCGILL 3. (Special to McGill Daily)

In a great game of soccer the invading McGill eleven played Yale to a three-all draw at New Haven Monday afternoon. Archdale, Moffatt and Scott scored for the Red and White. The players report that they are being given a wonderful time on their American trip.

The Yale game was the second of their tour, Springfield having been beaten Saturday 3-1. The third and last game in the States will be played against West Point to-morrow.

OPENING OF NEW SITE FOR U.B.C. RECENTLY HELD

Formerly Under Jurisdiction of McGill

MANY ADDITIONS

Sir Arthur Currie Receives Degree of Doctor of Law

On October 16, Principal Sir Arthur Currie received the degree of Doctor of Laws from the University of British Columbia, upon the occasion of the opening of new university buildings. Sir Arthur was the chief speaker at the ceremony.

The additions to the university are very extensive, and comprise two complete edifices and several semi-permanent buildings. The new Science building will provide ample accommodation for the departments of chemistry, physics, bacteriology, nursing and health. A new library building of the same type as the science building, will also be occupied shortly. Both of these buildings are finished in British Columbia granite, and are of a very fine type of architecture.

A theatre with accommodation for plays and moving pictures an administration building and a cafeteria capable of accommodating four hundred students, will soon be available, while a large new Arts and Applied Science building is in process of construction.

From 1890 until 1915, the University of British Columbia was under the jurisdiction of McGill University, during which time it progressed from a high school to a modern university. The provincial authorities assumed control of it in 1915.

Sir Arthur Currie paid a few days' visit to Victoria, and on his return journey, which he is taking at the present time, he intended to speak at the various McGill graduate societies at Calgary, Edmonton, Regina, Saskatoon, finishing with Chicago, Ill., where a large and enthusiastic society is awaiting him.

He will then proceed to London, Ont., for a short visit, and will also visit his home. He expects to be back at the University by Thanksgiving day.

S.C.A. CONVERSATION ON FRIDAY NIGHT

Opportunity for Men and Women to Meet

For all those who have just come to the University and do not as yet know anyone, Friday night is the time and Strathcona Hall is the place to remedy the situation. The occasion is the annual Conversation held under the auspices of the Student Christian Association, and it is certainly the best occasion for freshmen and freshmen.

Although all the details of the programme have not yet been completed, it is certain that the guests entering the hall will be met at the door and presented with a card on which to write their name and a pin with which to attach it to their coat, so that they can be identified easily. Thus the affair will be informal from the beginning and no one need feel that he will not have the chance to meet others.

Programmes will also be given out, these will be filled out as at other social functions. But in the carrying out of the numbers, each on the programme will be a "conversation." In

JUNIOR PROM.

Meeting of this Year's Junior Prom. Committee in the Music room of the Union at five this afternoon. Representatives from all Faculties are expected to be present.

HART HOUSE QUARTET TO GIVE RECITAL

Famous Artists to Play in Convocation Hall

THURSDAY AT 3.30

No Tickets on Sale but a Subscription Will be Taken

With the idea of propagating interest in Chamber Music among students at McGill, the Hart House String Quartette has consented to give a recital in the Convocation Hall of the Royal Victoria College on Thursday, Oct. 29 at 3:30 p.m.

The Hart House String Quartet is composed of Mr. De Kresz, first violin; Mr. H. Adaskin, second violin; Mr. M. Blackstone, viola; and Mr. B. Hambourg, Cello. The programme of the recital has not yet been definitely decided but will probably include Beethoven's Opus 135 and Haydn's Symphony in E Flat. Possibly, also, there will be a Bach Concerto of two violins with a quartet accompaniment. In such a case the solo parts will be played by Mr. De Kresz and Mr. Brant.

This famous quartet is one of the most rapid successes in recent musical history on the continent. This admirable ensemble, known now to thousands of music lovers, has proved in the one year of its existence that it is worthy of taking its place with the leading quartets now before the public.

It is not by mere chance that the Hart House String Quartet has come into existence. European conditions, which have been instrumental in sending so many eminent artists to this side of the Atlantic, played a leading role in the advent of Geza de Kresz to Canada. Having been leader of his own quartet in Bucharest for the late Queen Carmen Sylva and having been known as an ideal interpreter of chamber music in Berlin, Paris, and Vienna, he decided in 1923 to come to Canada upon the invitation of his old friend, Boris Hambourg, who formerly, as a member of a prominent string quartet in London, had played a conspicuous part in the musical life of the English Metropolis.

From the very start, these two artists determined to form a string quartet and thus recall in their new environment, some of the unforgettable hours of chamber music spent together with their former master and friend Eugene Ysaie. After mature deliberation they completed the Quartet by the addition of two outstanding young musicians, Harry Adaskin and Milton Blackstone, who had all the qualities essential to quartet playing in its highest form.

After the Quartet became established they affiliated themselves with the Hart House Theatre, hence the name Hart House String Quartet.

Fourteen "sold-out" houses in Toronto and twelve out of town engagements.

(Continued on Page 3)

PLAYERS' CLUB EXECUTIVE MEET

Two Plays Will be Produced This Year

The Executive of the Players Club met in the Union at five o'clock yesterday and decided to offer two productions during the present season one towards the end of November and the other about the end of February.

Actual dates were left to be settled at a General Meeting of the Club. It was decided to call a general meeting at four o'clock in the Music Room of the Union on Monday Nov. 2nd. The Executive hopes that all players and associates of the club will make a point of being present.

A second gathering of the Executive will precede the general meeting on the same day at four-forty-five. The executive was informed of accepting Prof. Lloyd's offer of the same room in the Biological Bld. as was used last year by the Club. The room was found very suitable and Prof. Lloyd's kindness is very much appreciated.

All present regretted that Bruce Ross, who was to have been Secretary this year, is not returning to McGill. Last year Ross did women service for Club in supervising the erection of the stage and framework, and also as chief Property Man. It is understood that E. Gray-Donald is ready to undertake the work performed by Ross.

Theodore H. Harris has undertaken the duties of ticket salesman and advertising manager. It is also possible that Mr. Harris will be elected Secretary at the forthcoming general meeting—it should be understood that it has been the practice in the Players Club to elect an Executive consisting of President, Vice-President, and Secretary, with powers of appointment two other positions as seems necessary in the course of work during the year. The Executive at present includes: Pres. A. P. R. Toulbourn, Vice-Pres. Miss D. Freeman, General Business Manager, T. H. Harris, Scenario, Saxton Pope—Stage Manager, E. Gray-Donald, while John A. Taylor's associated—Toulbourn and Taylor offered to produce plays, but a third produce has not yet been found.

The Executive was in favour of producing three One-Act Plays as last year, since the featuring was that one Three-Act Play would be too heavy as yet for the personnel. No definite suggestions have yet been made as to plays, although "No Smoking" was put forward. It is hoped, however, that definite suggestions will be offered next Monday.

Last year, in his first production, the Players Club lost some \$80.00, \$70.00 odd of this however, remained in the form of properties and other permanent necessities. Other expenditures on last year's production totalled roughly \$150.00, and ticket sales amounted to \$140.00. Harris, feels that these sales will be increased this year to something between \$200.00 and \$250.00 while these seem no reason to suppose that the ordinary cost of production on will be much changed.

SECOND SEANCE OF THE CERCLE FRANCAIS HELD

M. Robert Cuest of the Evening

HABITANT SONGS

Amusing and Tragic Incidents of Bygone Elections Related

The music room of the Union last night was witness to a most successful meeting of the Cercle Francais. The speaker who spoke on the politics of Canada was M. Robert, of the Montreal High School. On his entrance, he was warmly welcomed, in particular by many of his former pupils, and showed by his jovial demeanour his gratification in addressing the French element of McGill University.

In his address on the politics of this country, he related the most amusing anecdotes concerning elections in the days of Canada's political adolescence. Unfortunately it is impossible to do justice to these, consisting as they did mainly of "Jeux des mots" and states the point of which is lost in translation. But they dealt in the plain with the budgetary election, methods of days gone by, with the questionable tactics employed by even the most illustrious of former statesmen, in an effort to secure their election.

(Continued on Page 2)

HAROLD LLOYD GIVES SENIOR RUGBY TROPHY

For Annual Competition in Montreal

IMPOSING CUP

Mr. Dahn of the Capital Theatre Gives Details

A cup has been presented by Harold Lloyd, the famous comedian, for annual competition between McGill and the senior M. A. A. A. Rugby squad. It will be called the "Harold Lloyd Rugby Trophy" and according to present plans ought to be one of the best cups up for competition in Montreal. The team that wins the trophy for three years in succession retain it and in such a case, Mr. Lloyd has made provision for a new cup. At present there is no such trophy, the teams simply playing an exhibition game which does not give quite the impetus for the very best effort that such a championship struggle produces. Mr. Dahn, Manager of the Capital Theatre, intimated that in an interview with Mr. Staughwey Rugby Coach, he was assured that McGill would probably accept the presentation. M. A. A. A. has not yet been approached.

Some two weeks ago, Mr. Dahn became interested in securing such a cup and immediately telegraphed Harold Lloyd asking if he would consider presenting one. Knowing that one of his best pictures, "The Freshman" would be shown at the Capital Theatre shortly and hearing of the then proposed pantomime which was to take place at the McGill-Queen's game, Mr. Lloyd was much interested in the proposition. He wired saying he would be glad to present a cup for Senior Rugby championship in the city of Montreal. Following is his telegram: "I leave selection of trophy to Mr. Nathanson, Managing director of Famous Players Canadian Corporation. In view of the fact that it is to be played for each year call it the 'Harold Lloyd Rugby Trophy.' In place of referring to it as the 'Freshman' I regret sincerely production scheduled will prevent my attending game but I appreciate the invitation." Mr. Lloyd has also informed Mr. Dahn that one of the important actors closely associated with him will be likely to present the cup and that if he is ever in Montreal during any of his tours he can be counted on to see McGill play if it is during the Rugby season.

The cup will be fairly large and the proposed design will be very striking. A life size rugby ball on a stand, on one side a player converting a kick, and on the other two men tackling.

Harold Lloyd has presented only two such trophies—one to the University of California and the other to Harvard. Several cities in Canada have trophies for Senior Rugby championship.

(Continued on Page 3)

M.S.P.E. TAKE TENNIS FINALS FROM R.V.C. TEAM

Physical Eds. Take Three of Five Matches

FRESHIES GOOD

Well Placed Shots Chiefly Responsible for Victory

The M. S. P. E. downed their ancient rivals yesterday when they took the R.V.C. tennis team into camp on the courts in the hollow. The play in all matches was very close and fast and the tennis was exceptionally good for this time of the season.

Two sets of singles and one of doubles were won by the Physical Eds. and the R.V.C. were victorious in the two remaining sets of doubles. Miss C. Ballard of M.S.P.E. and Miss E. Cochrane of R.V.C. displayed great skill and technique in two very exciting sets of singles which were finally won by Miss Ballard 8-5, 7-5.

In the first set the games were even several times with many going to deuce. Miss Cochrane took the first two games of the second set and Miss Ballard the next five and the score was then brought to five all. Miss Ballard won the next two games only after they had gone to deuce several times. The set ended 7-5.

(Continued on Page 2)

WRESTLING

The following article was written by G. P. Smith, McGill Wrestling Instructor, and supervisor of Physical Training in the Westmount Schools:

In too many cases a wrong impression is held of wrestling, insofar as it is only a sport for the strong to participate in. This is wrong entirely where wrestling is conducted under proper auspices where the first care of the instructor is the benefit to the pupil.

In supervised wrestling as we conduct it at McGill all the members are first classified as to weight, ability and general physique defects are noted and special advice given for the correction of same. This is followed by a series of different holds, with no chance of strains by their uses for the purpose of conditioning and hardening up the prospective pupil as well as the experienced men. This is followed by progressive instruction in the primary holds after these have been mastered to a certain extent the combination or sequence holds are taught followed by the breaks and counters. The oral method is the one we use the most owing to the necessity of the pupil having to use his thinking powers more than where the demonstration method is used. We find he knows why he is doing a certain thing much better than in other methods also retains his knowledge much longer.

Now as to the benefits gained from a knowledge of wrestling. First strength by being a complete system of "F. T." in itself wrestling brings into action every muscle of the body, increasing in size, strength and control. The deeper groups of muscles which so many other forms of exercise only slightly use are built up evenly with the surface ones and thereby give greater strength and ability to stand strain or to resist punishment. Secondly (coordination) The reason for the exhibitions of strength surprising to the uninitiated giving by our light weight wrestlers is due to the wonderful co-ordination developed by wrestling whereas the bigger stronger but inexperienced opponent would use only a few groups of muscles to apply or resist a hold. The smallest on experienced wrestler would co-ordinate a great number of groups, all assisting one another and making him appear much the stronger of the two. Thirdly (self-reliance). Where there is a highly developed sense of muscular control or co-ordination there is bound to be a feeling of reliance in your ability to take care of yourself as the body answers your will instantly. As you become more skilled and experienced your answer is instinctive in unexpected attacks, whether you are partly dazed by a blow or thinking of something else. The wrestler—instincts will always assert itself. (Fourthly) If you are a lover of other sports, wrestling will not affect your ability to play well but will add to it. There are some critics who maintain that wrestling causes you to be muscle bound. This is a fallacy in one way and not in another; too much wrestling without other sports might slow you up owing to its tremendous muscle building qualities but the usual amateur, and I am speaking for the benefit of such, does not indulge to that extent and with his variety of sports there is not much chance of this.

For the benefit of those who are inclined to be too fleshy I know of no other way that is better for them to reduce than by wrestling. In too many cases fat is caused by a lazy habit of mind and no desire for active work. Wrestling will create this desire and cause men to take part in many other activities. For the weak and puny it will create strength as they will be under the continuous observation of the instructor and will be closely supervised and advised as to diet, sleep and other means that will go to make them strong. I have had men weighing 235 lbs coming down to the 200 mark in the season and those weighing below the 120 mark finding it difficult to make the 135 lb class a couple of seasons after wrestling. I am referring to men over 21 so it was not natural growth but muscle building.

Now to the men of McGill a clarion call for new members. Owing to graduation the wrestling class, like other sports has been hit very hard and we need your physical assistance right now. If you intend to box, come

ACTIVITIES BEGIN IN C.O.T.C. RIFLE CLUB

The C. O. T. C. Rifle Association will start activities on the second Saturday in November.

The Club will meet for the first time this session in the basement of the Montreal High School, for the purpose of electing officers, the executive, and holding a practice shoot.

The Club is open to all members of the C. O. T. C., as well as to outsiders who pay certain fee which is to be announced later. Besides instruction in shooting, the club enters annually in the Inter-Collegiate Rifle Association Matches, and also in competitions with various Canadian and American institutions.

Trophies in the form of spoons can be won in the matches of the C. I. R. A.

The following men were successful in winning them last year.

K. Reid, H. Campbell-Brown, J. G. Shotwell, A. C. Yerxa, T. R. Wordleworth.

These trophies may be obtained by calling at the C. O. T. C. orderly rooms 746 University St.

MISS ALLEN, FOURTH YEAR WINS TENNIS PRIZE

The R. V. C. Tennis Consolation Tournament was completed yesterday when Miss I. Allen, Fourth Year, won from Miss R. Smith, First Year in two straight sets.

The score in sets was 6-0, 6-1, but all of the games were very closely contested, in one the score going to seven eight times. Very few doubles were served by either players, Miss Smith's serve being particularly good and won many points for her.

As victor in this match Miss Allen wins the prize offered by Miss Cartwright for the best player in the R. V. C. Consolation Tournament.

C.O.T.C. ORDERS

McGILL C. O. T. C.
Special Orders by Lieut. Col. R. R. Thompson, M. C. O. C.

Manoeuvres at St. Margaret's.

The Battalion will parade at the Place Viger Station on Saturday, October 31st, at 1 p.m.

Dress: Service Uniform. Each cadet should carry an extra pair of socks and an extra pair of shoes suitable for wearing in the Club House. Packs will be drawn from the Quartermasters Stores before Saturday.

The Quartermasters Stores will be open every evening this week between 5 and 6 p.m.

The whole Battalion will return to Montreal on Sunday evening arriving in town at 9.30 p.m.

J. W. JEAKINS,
Major and Adjutant,
McGILL C. O. T. C.

HAROLD LLOYD GIVES SENIOR RUGBY TROPHY

Continued from page one
ship, among them Toronto, Hamilton and Winnipeg, but up to the present time, none such has been played for in Montreal. Nearly all the important cities in the U. S. also have cups of a similar kind.

Of course it must be remembered Mr. Dunn remarked, that the trophy is being presented through the interest McGill has shown in the coming picture "The Freshman" which Harold Lloyd has dedicated to the College of which he is a graduate.

down once a week for wrestling and if you intend to wrestle, box, once a week and I will guarantee you will have no regrets at the end of the season. First and second year men you must take some form of gymnastics, so why not wrestling? You will never forget the science of it no matter how old you are. We have five mats and the evenings are Tuesday and Thursday at 5.15 in Strathcona Hall.

G. P. SMITH,
(Wrestling Coach)

MCGILL MERMEN INSPIRED BY ROOTING CO-EDS

Continued from page one

Play now centered around the McGill goal and a score seemed imminent but snappy work by Kyle put it out of danger. Anson knuckled on and banged in a back shot which the keeper could just turn for a corner. The ensuing play was critical but the defence rallied and all things went off smoothly. Clacholme and Moore broke away in a splendid speed exhibition down the tank and it was only a rattling save by Walters that kept the score at zero. This play had left the defence uncertain and Ross getting the ball from the return flipped to Brooks, who was left unmarked by MacLaren, and the Grads notched up their first tally. McGill now having been primed were on fire to retaliate. Clacholme snapped up the ball from the throw in and passed to Forsythe who sent in a shot that surprised the keeper but it was cleared to a defence man. The forwards were on top of the defence players and a big scene was staged in front of the Grads goal. The veteran Vernot came along and gently wedged his form in and pushing all other competitors aside, sent the ball along to the opposite end. Play was hot when the bell called quarter McGill 0; Grads 1.

McGill had the advantage of the speediest centre in Clacholme who without fail saw that his team obtained the ball at the throw in. He also warmed the goalie's hands with a shot that wanted some holding. Getting the ball from his goalie, Anson swam up and forced matters and the procession he led was a good display of style and strokes. MacLaren saw that this chance was not used well. In the tussle Vickerson was put off for a minute and his return marked new efforts by the Grads. Vernot in defence returned the ball smartly and at times left his attackers far behind. The Grads forwards showed quick passing and with Vickerson well placed the ball went to him and he scored. Anson coming up from defence had great chances and once he missed an absolute sitter. Half time: McGill 0; Grads 2.

The third quarter was a recovery for the Intermediates, although it is not known whether their hardener hearts were in any way warmed by the gallery. Play was heavy in the McGill end but Jardine rose to the occasion and took the ball out of the shooter's hands and with short and snappy passes up the tank Moore swam in and scored. Vernot was evidently out for blood went up to the goal vooching all the way, and puzzled Jardine who cleared well. Forsythe when heavily tackled, tried a shot and all but scored. For the defence Kyle made a specialty in checking Anson and in delivering the ball to Moore gave him the opening that led to his scoring the second goal for the Intermediates. Play was now keeping up round the Grads goal and the spectators were given the unique opportunity of seeing two two hundred pounders Vernot and Forsythe having a tussle in and out the water (porpoises could never have emulated their antics and Archimedes would have had a great time in computing their several displacements). The ball quickly shot to the other end and Jardine was called upon to save repeatedly. When Vernot passed to Vickerson it looked a certainty but the stalwart Jardine saw that there was no scoring.

McGill 2 Grads 2.

The last quarter lingered in. The Grads waited to pull off the game but the doggedness of the defence now augmented, kept them at bay. The Grads began to see that with a crowd near goal their chance lay in the flipping of high passed balls. Vernot sent them up and Ross and Anson did their best to turn them in. Anson became to eager and forfeited yards with which advantage Clacholme and Kyle in the passing just missed a beauty. Forsythe, now starting on defence, cleared well and against his rival Vernot had a lively time to the gratification of the spectators. Vernot completely submerged except his forearm shot with accuracy and speed but Jardine cleared it and Moore sent it to the other end.

Full time McGill 2 Grads 2.

For the overtime period of three minutes the teams were depleted. Clacholme having a cramp the Grads sportingly dropped a man. The fight renewed in a ding dong manner and

Ross swimming away with the ball was just frustrated by the bell. MacLaren now in a sharp play also obtained a cramp. The game had been strenuous all the way along and was beginning to tell on the players.

In the last three minutes Vernot was penalised and so McGill showed up with distinction but on Vernot's re-entry he repeated his tussle with Forsythe again shooting while submerged he scored the deciding goal. McGill 2 Grads 3.

HART HOUSE QUARTET TO GIVE RECITAL

Continued from page one

ments, taking the Quartet as far as Halifax, N. S. make an unprecedented achievement and constitute a great tribute to the efforts of an organization so young.

Last year the Montreal recital of this famous group was given in the Hall of the McGill Conservatorium of Music. Such a large number of professors and students were present that the room was overcrowded and it was considered advisable to use a large room this year. No tickets will be required but a subscription of fifty cents will be asked of everyone attending in order to cover incidental expenses.

COMMERCE DEFEATED BY MEN OF SCIENCE

Science decisively trimmed Commerce in their interfaculty game played yesterday on the Campus to the tune of 25-1.

The field was fast and productive of some good football. The weakest division seemed to be the kicking and the catching of the Commerce backs. Commerce opened the scoring with a rouse in the first quarter. The result was disastrous, Science saw red and proceeded to hang up twenty-five points.

The Commerce line up was not obtained but the Science team lined up as follows:

Flying Wing Dion
Half Slater
" Irwin
" James
Quarter Reid
Snap Montgomery
Inside Leach
" Desbrossay
Middle Pliny
" Vulle
Outside Taggart
" Consiglio
Sub Fairbanks
" Row
" Loomis

" Winters

Intellectual and Enlightening Discussion at General Honors Conference

"I found the Hlad a very human book"

"What do you mean by 'human' and furthermore what do you mean by 'book'?"

"I mean that it is very true to life"

"Ah! But what do you mean when you use the words 'true' and 'to' and 'life'?"

"But I don't understand what you mean by 'what do you mean by'?"

"But please tell me what you mean by 'what you mean by' 'what do you mean by'?"

—Columbia Spectator

YALE AND MCGILL IN SOCCER DRAW

Score Remained 3-3 After Overtime Play

Yale and McGill soccer teams played to a three-all overtime draw at New Haven yesterday. After two extra periods of five minutes each had been played the tie remained unbroken. It was the finest exhibition of soccer seen at New Haven this season. Douglas in the Yale goal started for his team, averting disaster time and again when the Red and White were pressing hard. Gavin, the visitors' outside left who had been the individual star of the Springfield game, again showed up best for McGill.

McGill opened the scoring early in the first period when Archdale sent in a high kick from well out. The Ellis evaded things when they scored on a corner. The visitors went ahead again in the second when Moffatt took a pass from Scott and sent the ball into the net, but McKen added Yale's second to make the score two-all. At the first of the third Scott scored for the Red and White, but Yale soon evened the count once more from a mix-up in front of the goal. From then on to the end of regular time and through the two overtime periods the two teams fought desperately but could not score and the count remained 3-3.

McGill left New Haven last night for the match against West Point, the last of their American tour.

MCGILL'S LINE-UP:
Goal — Amaron
r. back — Giovando
l. back — Stephenson (Capt.)
r. half — Sparks, Denny
c. half — Archdale
l. half — Helwig
o. right — Sh ppm
l. right — Scott
c. forward — Kelland
l. left — Moffatt
o. left — Gavin.

Why should a man mind admitting a mistake? It proves that he is wiser to-day than he was yesterday.

NOTICES

TO LET

In Union, double room, 25 dollars a month. Apply at Secretary's office.

PHARMACEUTICAL SOCIETY

The first general meeting of the society will be held in the New Medical Building on Wednesday, October 28, at 8 p.m. Prof. A. B. Moore will speak on "A Trip to the Antipodes and South Africa." Students of other faculties invited. Refreshments and smokes.

HART HOUSE

Hart House String Quartette are giving a recital in the form of a general rehearsal on Thursday, 28th October at 5.30 p.m. in R.V.C. This rehearsal is given only for the Faculty and students of the University. Details will be given later.

SCIENCE UNDERGRADS' ATTENTION

There will be an important meeting of the Science Undergraduate Society in Room 33 of the Engineering Building on Tuesday, October 27th at 5.00 p.m. Some very important business will be discussed and a new secretary elected. All Science men are urged to be present and Freshmen particularly are invited.

MANDOLIN CLUB

All members are requested to be present without fail on Wednesday night, Oct. 28th, for a practice and for the taking of photographs. Costume to be, white shirts, black bow tie, wing collar, white flannels and blue coat.

CHEMICAL INDUSTRY CLUB

There will be a trip to the Imperial Oil Refineries on Wednesday, October 28th. Party will leave the Chemistry Bldg. at 2 p.m. sharp. All interested in oil refining are welcome.

McGILL BAND

First rehearsal of this week will be held at five o'clock to-day in the Music Room at the Union. As there are several important engagements in the near future and as there is a lot of new music to be prepared for these events, it is essential that every man attend the rehearsal.

Announcements of the program and plans will be made to-day. Everybody up. This means you.

NOTICE

The regular weekly meeting of "The Presbyterian Students' Missionary Society" will be held in the "Chapel," Discoman College, University St., on Wednesday evening, 28th October at 8.00 o'clock p.m. An address will be given by Wallace W. Gotsch, B.A. All Presbyterian students are requested to attend, while other students are cordially invited.

CECILE FRANCAIS

Instead of a regular meeting next Monday night, the members of the Cercle are invited to attend a theatre night on Friday, Oct. 30th, at the Gaiety, where worthy French plays are being represented. Tickets for a luncheon of 50 per cent can be obtained from the professors.

DENTISTRY ATTENTION

Will the following men meet in Room 19 New Medical Bldg. Tuesday, at 4.30 p.m. to discuss Dental Thrift: Dentist: Smith, Cannon, Winn and Whitehead.

ATHLETICS

TRACK

All equipment must be turned in at the Field House at once. The Track room will be open daily between 4 and 5 p.m.

SWIMMING AND WATER-POLO

Water-polo practices will be held every Monday, Wednesday and Friday of each week from 5.30-6.30 p.m. All interested are earnestly requested to attend. Gym attendance will be granted from 5.30 to 6.30 only.

HARRIERS

There will be a Harrier run every Monday, Wednesday and Friday, at five o'clock. All Harriers and those interested are invited to turn out.

ROWING CLUB

Applicants for membership in the Rowing Club will please leave a note in the Union, addressed D. Logan, Rowing Club. Applications should contain name in full, weight, class secured in physical examinations, faculty and year. Applicants are expected to have a try-out on the machines under the coach's supervision and leave their names with him before their names will be considered by the Executive. Coaching hours 2-6 p.m. daily.

WRESTLING

The first practice of the season will be held on Tuesday at 5 o'clock in Strathcona Hall. Coach George P. Smith will be present, so that all are urged to appear, regardless of whether or not they have had any previous experience at wrestling. Attention.

dance will be given to first and second year men.

MED-ARTS

The Med-Arts rugby game will be played on the campus on Wednesday afternoon at 3.30.

MEDICAL FOOTBALL

Everybody must be out for a practice to-day at 5 p.m. Game with Law to-morrow makes it necessary to do a bit of tedious brushing up.

ROWING CLUB

Applications Accepted. K. Glassford, W. McConnell, C. Binnie, C. Gardner, M. McKelvey, C. Nolan.

THE EXECUTIVE

GYMNASTICS

Work-outs will be held every Monday, Wednesday and Friday at 5.00 p.m. in the gymnasium of the Montreal High School. All are cordially invited to attend, especially first and second year men. Physical training credits are given.

BOXERS

Boxing practices start to-day in Molson Hall. Practice will be held on Tuesdays and Thursdays. Coach Bert Light will look after all newcomers. First year men are especially invited to attend.

R. V. C.

PARTIALS

This year partial students in any faculty have the option of paying \$5.50 to the Bursar as membership fee of the M.W.S.S.

Until this has been paid a student may not take part in any student activity.

FRANCES S. STOCKING

Pres. M.W.S.S.

M. W. S. A. A - GROUP II

A list has been posted on the notice board of the R.V.C. Athletic Association which all those who wish to play basketball this year are requested to sign.

It is hoped that as many students as possible from the various faculties and departments will sign the list as all women students of McGill who pay the University fee of the M. W. S. A. A. and are not registered in the School of Physical Education are members of Group II of the M. W. S. A. A. and are entitled to its privileges.

As the list will be taken down to-day, it is requested that all students concerned will sign immediately.

FRANCES SECORD

Basketball manager.

DEPARTMENT OF PHYSICAL EDUCATION

(For Women)

Dr. W. E. Hall, noted Medical Teacher, Writer and Lecturer has been asked by the Department of Physical Education to give the following Lectures on Wednesday, October 28th, at 5 p.m. entitled "Ideal Womanhood." This Lecture will be given in Room 12 R.V.C. and all Women Students of the University are invited to be present.

Dr. Hall will be in Montreal for a week, lecturing to Women and Men Students.

This is the only Lecture available for Women Students at McGill University and all interested are asked to make a point of being present.

E. M. CARTWRIGHT

Physical Director for Women.

EXECUTIVE COUNCIL OF M.W.S.S.

At the first meeting of the Executive of the M.W.S.S. the following Executive Council was elected:

Honorary President—Miss E. Hurlbutt.

1st Vice-President—Miss E. Amarop.

2nd Vice-President—Arts Representative.

Recording Secretary—Miss M. McLean.

Corresponding Secretary—Miss L. Chalk.

Treasurer—Miss M. De Biols.

FRANCES S. STOCKING

Pres. M.W.S.S.

R.V.C. TO ATTENTION

Every member of this year must attend the meeting of the Undergraduate Society on Thursday when the constitution will be amended. This is a matter of vital importance to all first year students.

R.V.C. UNDERGRADUATE SOCIETY A meeting will be held on Thursday, October 29th at one o'clock in the Common Room. Business: Amendment of the Constitution. 150 students must be present.

LEILA E. ARGUE

Pres.

4 O'CLOCK GYM CLASS ATTENTION!

This class will go to other 2 p.m. or 3 p.m. classes and report attendance to teacher in charge on account of the S.C.A. Reception.

INITIAL BASKETBALL PRACTICE IS SUCCESS

Over sixty-five men were present at the first basketball practice of the season held in the High School gymnasium yesterday afternoon. This was very encouraging but there is still lots of room for good material and anyone interested is again requested to turn out.

It has been decided in future that Arts and Commerce shall practice on Tuesdays and Thursdays, while all other faculties will turn out on Wednesdays and Fridays, thus giving everybody a fair chance.

The Seniors will be soon setting in to work seriously and it is stated that "Hammy" Boucher will turn out again as soon as the football season is over.

A GREAT DISAPPOINTMENT

From the series "My Four Years at College" BY HARRISON FITZ-KAY

I have always cherished a secret desire to attend a girl's boarding school. It may seem strange to you that this desire should be a secret one, but the fact is that fate has played against me right from the very beginning and I was born into the male ranks. No doubt, had I been born a girl, my desire, also a secret one, would be the reverse of the above; but, be it as it may, I thought my ambition would never be realized.

Imagine my surprise and intense delight then when I heard that the McGill Contingent of the C.O.T.C. goes out to St. Annes for manoeuvres and quarters at McDonald College. Here was my chance at last. I lost no time in enlisting as a prospective officer and I was the first to get ready for the St. Annes trip weeks in advance. Of course, I had my uniform remodelled by the best tailor in town, so that I might appear to the best advantage when I am in the company of the girls at the college. I felt that I was sure to make a hit with the girls there, and besides fulfilling my wish I would have a wonderful time.

About three o'clock on that long-awaited Saturday afternoon, which by the way was the Saturday before Thanksgiving, our train pulled into the St. Annes station in a blinding snowstorm. I was a bit disappointed that none of the girls were there to meet us, but I was not discouraged at such an early stage, realizing that no matter how eager the girls were to see us, they were kept back by cruel nature in the form of the snowstorm. On the way to the college building I seemed to picture the good-looking girls I'd meet there, and by the time I arrived there, I was whistling a merry tune. We were immediately given orders to unpack and prepare our beds for the night but we were told to hustle as a battle was scheduled in half an hour's time. I did this work cheerfully for I felt that my ambition was fully realized. I was at a girl's boarding school at last.

The battle that afternoon was the first taste of something like war since the time I took part in "Robbers and Police" when I was a kid. With a rifle slung over my shoulder, I had to proceed along with my comrades-in-arms through the famous mud and slush of the St. Anne's fields trying to get within capturing distance of a machine gun entrenched on a knoll. This knoll was about three miles away from the college.

And to get to it, there was more than one barbed-wire fence to climb and quite a few ditches to jump over. When we stepped into the mud, we were lucky if we could pull our feet out again, and the barbed wire fences kept most of the fellows busy with their needles later. All this wasn't an aid to pleasant thoughts, so it was a matter of necessity to think more of my feet than of the girls back at the college.

After three hours of the above, a truce was declared, and we made our way back to our quarters feeling tired but happy. Although I was a bit weary and feeling quite wet in my shoes—for I had gone into the battle with half shoes and silk socks, I did not forget that at dinner I would have the pleasure of seeing the bodies of St. Annes. Well, to make a short story longer, I brushed my hair and combed my teeth.

Will find please leave with Crawford at New Med. Bldg. J. S. A. Miller, Med. '25.

LOST

One gold-plated fountain pen in or around the Arts Bldg. on Thursday, Oct. 22. "T.B.S." engraved on barrel. Please return same to Janitor, Arts Bldg.

RUGBY TEAMS

The Intermediate and Junior Rugby teams will hold a practice at the Stadium at four o'clock this afternoon. All members of these teams will please be present.

PROF. MOORE TO TELL RECENT EXPERIENCES

The Pharmaceutical Society will meet on Wednesday night in the New Medical Building. The popular head of the Dept. of Pharmacy will give the pharmacy students in general and those who are interested in traveling in particular an opportunity to hear him relate his experience during his recent trip to the Antipodes and South Africa.

Prof. Moore is noted for his eloquence and humour, so that an interesting evening is assured to those attending. Whilst abroad the Professor had the opportunity of studying the industrial and scientific strides made in other parts of the Empire and a comparison with Canadian conditions ought to be extremely interesting.

The Executive extend a general invitation to students of other faculties to attend and also to bring their friends along.

ready to meet the girls, but when I entered the dining hall, I was greatly astonished to see the room partly filled with the agricultural students while at a table in a corner, sat a solitary female, for although she was a girl, she wasn't the girl I picture in my mind when I think of girls. She was the only female in the place, so I thought that she was perhaps some teacher or other while the girls were having their dinner elsewhere while the soldiers were in camp, so I was quite serene, expecting to meet the girls later in the evening.

After the meal had been put away, we were told that we could do either of two things, stay in the gymnasium where we had our sleeping quarters or else go out to see the town. I thought there was more chance to meet the girls in town, so I naturally made my way along the main street to see what I could see. After wandering about the town for over two hours without meeting a soul, let alone a girl, I gave the matter up in disgust. I still wondered why the girls did not show themselves, but I learned later that the girls are not allowed to go out after six unless by special permission. It seemed that none of them took advantage to meet us boys that day, but I still had hopes that the morrow would bring better results.

The next day was just much better as to weather than the previous one; in fact it was great deal worse. It was a lot colder, and as I thought of the battles in store for us in that cold weather, a chill went down my back, due to the cold no doubt. Well, the first meal of the day did not bring any results, the same woman was the only female in the room with me and not a glimpse of another girl yet. I was getting more and more discouraged, but I still hoped that I'd meet some later in the day. That morning's battle was fought in the bitter cold and by the time a halt was called to the fighting, I had a couple of frozen ears that could easily have been mistaken for a pair of telephone receivers anywhere.

With the swollen ears spoiling my good looks, my desire to meet the girls was somewhat dampened, but when no girls appeared even at or after luncheon, I was getting fed up with this girl boarding school. I was not eager to be at a girl's boarding school when I didn't even see any girls.

One more battle was in store for us, and I came through that one with a frozen nose to match my swollen ears. I was now a prize beauty, and I assure you that I lost my ardour

MILTON SHAUFFER TO ARRIVE IN CITY SOON

Mr. Milton Shaffer, General Secretary of the Student Volunteer Movement, will be in Montreal for several days during the first part of December. It is believed Mr. Shaffer will lecture under the auspices of the Student Christian Association and in all probability will discuss the general Chinese situation, the Missionary movement in China, the Young China movement and other questions of importance which have bearing on present conditions in that country. Mr. Shaffer has just returned to Canada after spending ten years in China and therefore is in an excellent position to discuss matters of the far East. His reputation as a lecturer will doubtless double the interest both in the man and his subject.

LECTURE IN UNION THIS AFTERNOON

Continued from page one
square deal and more—(I will give back pure blood and strong, skilled muscles and a clear brain for future happiness, the country's service and the past and to the future in a great chain of human beings.)

A man by a false step may infect the racial stock, wreck the hopes of fathers and mothers reaching back for hundreds of years and blight the lives of generations to come. The work of life in a sacred trust to be received reverently and transmitted undimmed to future generations.

As with most contagious diseases, the way to prevent and reduce venereal diseases is to educate people concerning them. People must know that venereal diseases and the miserable business of prostitution which spreads them, cause not only disability, wrecked lives, paralysis and insanity among men, but invalidism and sterility among women, blindness, deformity and idiosyncrasy among children.

The silence surrounding sex has meant hours of needless worry and depression in the lives of millions. No longer either in war or peace can this tremendous loss of man-power be afforded.

For the nation its outcome means in the long run, a people virile and strong and self-controlled or a people weak and degenerate. It must be faced courageously; but it must be handled carefully, tactfully, and with saving common sense. It needs the cooperation and wisdom of the nation's teachers working patiently and intelligently for its right solution.

Nation-wide campaign is now on foot for the purpose of educating the men and women of Canada with the true facts concerning this impending menace. Those who are car-

altogether to see a girl. But I was still curious why no girls appeared during our stay there, so before leaving the place for the city, I approached one of the Aggies and asked him man to man, where were the girls. I nearly took a fit when he told me that all the girls had left the school to spend the week-end and Thanksgiving at their respective homes. That decided me that army life was not for me, for they say it's a great life if you don't weaken, but I weakened.

Choosing a Shirt

The small part of a man's shirt that peeps from his coat cuff or makes a background for his cravat, is of sufficient importance to prompt most men to choose with discretion. The ROYCROFT SHIRTS in blue, with stripes of lighter blue or white, have gained the favor of many men who take care of such important details. Soft cuffs and starched collar to match, of course.
